OSRAM PURSOS™ LED Flood Light

OSRAM PURSOS™ LED Flood Light

The OSRAM PURSOS™ LED flood light range combines the latest in LED technology with a robust, weather proof (IP67) design to deliver a long life, maintenance free flood lighting solution. The brilliant true-white colour of PURSOS™ LED, along with enhanced optics provides smooth and consistent light which is ideal for billboards, area flood lighting, security and building façade lighting.

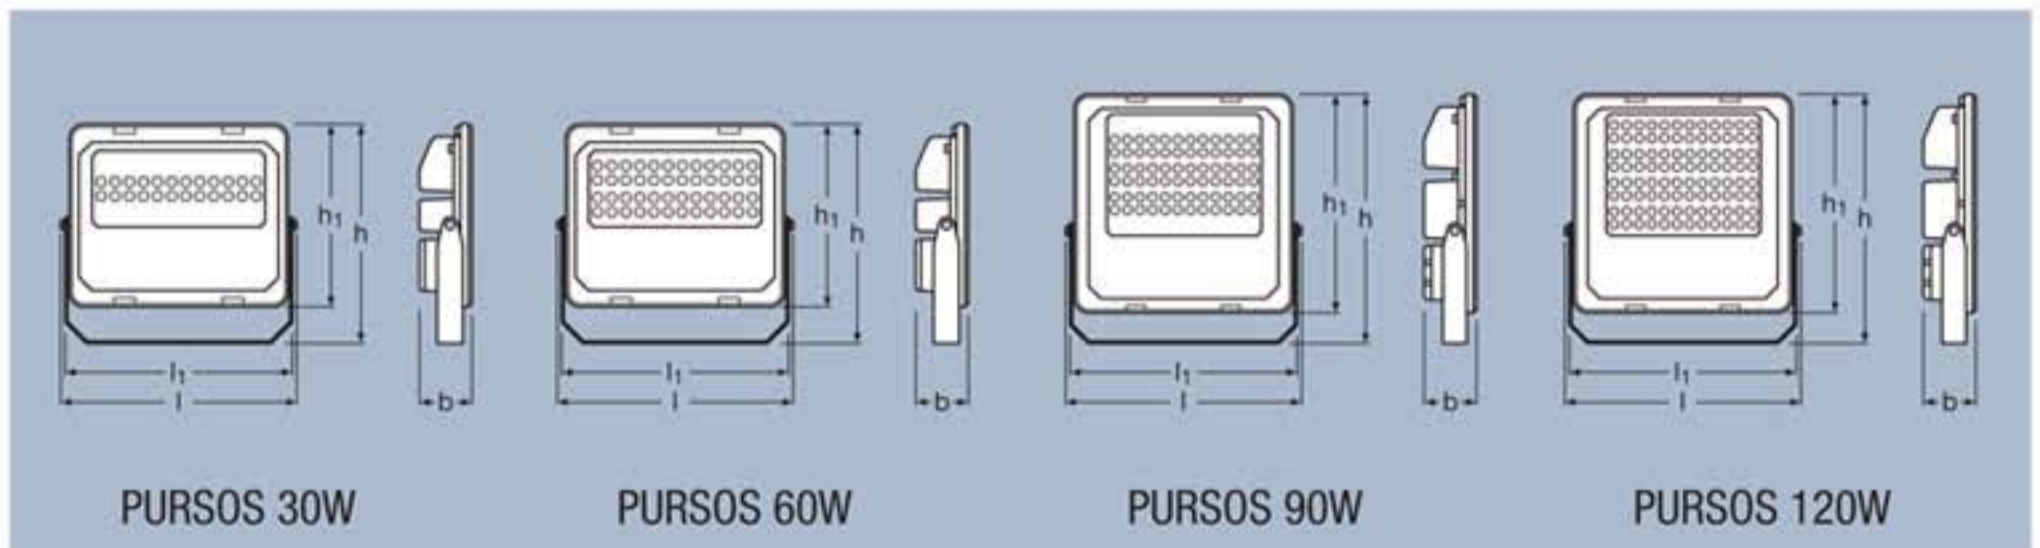

With an extra long life of 50,000 hours and a durable luminaire construction, the PURSOS™ LED flood light range offers big savings in maintenance costs, particularly for installations with hard to access areas such as rooftop billboards and building façades. With LED technology the PURSOS™ LED flood light promises energy savings and a reduced carbon footprint.

FEATURES & BENEFITS:

- Extra long life time of 50,000 hours means big long term maintenance savings
- IP67 protection - PURSOS™ has undergone rigorous testing to ensure protection against intrusion of dust and water
- Available in 30W, 60W, 90W and 120W for a wide range of applications. Replaces traditional Metal Halide flood lights in 35W, 70W, 100W and 150W respectively.
- Slim and robust housing - constructed from durable die cast aluminium which also provides optimal thermal management
- 180° swivel arm bracket allows for simple tilt adjustment

IDEAL APPLICATIONS:

- Billboard illumination
- Area flood lighting
- Security lighting
- Façade and building illumination
